Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can give his customer free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

One of our advertisers makes a peculiar announcement in this issue, offering \$350 for the oldest piano in this neighborhood. Those whose nerves have been jarred by discordant walls from instruments that have long outlived their usefulness will hope that he will buy and burn them all. Such a devotion to be wished for consumption is too good to be true, however, and we are left to wonder what he wants with the old pianos anyhow.

NEAT SUM REALIZED.

Entertainment at the Courthouse Thursday Night a Financial Success.

To the untiring efforts of Mr. R. L. Hoelich and others is due the splendid success, from a financial standpoint, of the entertainment given at the Courthouse Thursday evening, the net proceeds from which were to be added to the Opera house fund.

Besides affording an evening of pleasure to many, the cause for which it was given was a most worthy one, evidenced by the rapidity with which the tickets were sold, and the handsome sum realized.

The expenses incurred to get up the benefit were small, amounting to a little over \$67, the time of the managers and those taking part being freely donated by them.

In addition to these, when it came to winding up the affairs, Jailer McVaine donated the use of the Courthouse, equivalent to \$5. F. F. Gerbrich the use of one of his handsome pianos, William Dinger drayage, the Mayville Orchestra kindly furnished the music and the Mayville papers gave the use of their advertising columns.

Also, a license for the entertainment had been granted, but it is safe to say that at the next meeting of the City Council, Mayor Stalcup and the Councilmen will generously refund the same. The Mayor having already donated his official fee.

In all \$35.30 has been paid over to the Soliciting Committee, which, counting the license \$3 and 50 cents yet to be reported, makes the sum total \$38.80.

THE COURT OF INQUIRY

Leaves Key West for Havana on the Mangrove.

It Will Probably Finish Its Labors There Within Ten Days.

While the members of the Court have their individual theories, they are not as yet ready to render a decision.

Key West, Fla., March 5.—After two postponements of its departure the court of inquiry left for Havana Friday evening on the light house tender Mangrove. It is believed by the best informed here that the court will complete its labors in the Cuban capital within ten days.

Only three of the six days the court was here were devoted to the work of investigation. The inactivity of Thursday and Friday is still unexplained, except by a semi-official statement that Mr. Adm. Seward was awaiting instructions from Washington.

The sessions, it is generally understood, developed no evidence by which the court could definitely determine the cause of explosion.

A naval officer in close touch with the members of the court said to this correspondent:

"With one exception the witnesses who testified here were Maine sur-

HAVANA, March 5.—The American divers, having examined more or less thoroughly the ward room of the Maine and the senior and junior officers' mess rooms, were Friday trying to effect an entrance into the petty officers' compartment in the hope of finding bodies there. However, each day the belief grows stronger that few if any more bodies will be recovered. Not one body was recovered Friday.

Capt. Sharp, who is in charge of the Merritt and Chapman wrecking outfit, appreciates the difficulties of the situation better than others. He will not specify any time when the big guns will be released. It is necessary to first remove the tops of the turrets. These are held in place by steel bolts, which must be cut loose. The best informed people here think a month will elapse before the turrets are opened.

Key West, Fla., March 5.—El Yara, a Cuban paper, publishes an extraordinary report from Havana of the plot to blow up the Maine. According to this story, a Spanish diver named Barquin, well known in Havana, was employed to place a mine under the American battleship and connect it by wires with Santa Catalina.

El Yara's informant says that Barquin was taken aboard the steamship Colon the afternoon of February 13. In the evening he went down under the waters of the bay, and placed the magazine under the keel of the Maine. He was given \$20,000 for the job, and returning home, told his wife the story. A few hours later the government again required his services and he was directed to make an inspection of the keel of the cruiser Albatroz XII. When under water his air tube was
